PROJECTS

LexTrack **February 2026 - Present**
Document Management & Tracking System
- Developed frontend interfaces and contributed to backend functionality to support document management and tracking for the Bicol University Legal Affairs Office.
- Created wireframes, system flowcharts, and high-fidelity mockups in Figma to guide system development and improve interface usability.
- Collaborated with team members to integrate frontend components with backend services, supporting the system's overall functionality.

FleurChase **February 2026 - May 2026**
E-commerce Web Application
- Designed the user interface and developed core frontend features to support online shopping for a local flower shop.

- Implemented interactive components and user flows to make product browsing and shopping easier for users.
- Managed code changes using Git and documented design and logic updates to support team collaboration and project maintenance.
